

Student Scientists' Connect

Venue: CSIR-CRRI, New Delhi

Date: 17.07.2023

About The Program

Hon'ble Minister (S&T) Dr. Jitendra Singh emphasized that each of 37 CSIR laboratories is unique and specializes in as diverse areas as the building to structures, road to robotics, minerals to materials, & so on. To showcase and propagate such diversity across society Hon'ble Minister announced the idea of "One Week, One Lab (OWOL)" to be a nationwide theme-based campaign to showcase the technological breakthroughs and innovations in the CSIR labs.

Purpose

- Launch of Road Safety Game
- Students and Young Engineers Visit
- Screening of CRRI Film

Student Scientists' Connect

Venue: CSIR-CRRI, New Delhi

Date: 17.07.2023

1
week
OneLab

Science is more than learning established facts and findings, understand the impact of global issues and their current solutions.

Students need experiences with questioning current scientific understandings and technological practices, the opportunity to generate ideas and possible solutions to existing problems, and to engage with scientists to benefit their community.

To promote scientific temper among the students, CSIR-CRRI, a premier roads and road transportation research organization, invites participation of the students and teachers in the Student Scientists' connect program under One Week One Lab (OWOL) campaign. The aim of the program is to empower the students to explore their scientific interests, ask critical questions, and develop a deeper understanding of the scientific process.

The program provides an invaluable chance to the students to experience the real-world application of scientific knowledge and methodologies. This program aims to not only enhance students' academic and professional development but also nurtures a passion for scientific inquiry, inspiring the next generation of scientists.
